

MODULAR PARLORS

2018

OUR VISION

We have researched the options currently offered in the UK for business spaces and realised that the range could be more versatile.

Our response was to apply our advanced technology we already use building domestic products and design bespoke modular office and business space units of extraordinary quality. They had to be affordable, durable, able to hold their resale value, and provide cropped maintenance & operating cost.

Factory built in UK

A better PRODUCT

We're constantly perfecting our concept of how to build our business to business range that would take over from the often overpriced, poor quality ones, that are hard to keep warm, expensive to maintain and have a short lifespan. Our modular products are built to pass standard UK building control regulations, are financially smart to maintain and due to the way we build them have the lifespan of a domestic house.

HUNDREDS OF
BESPOKE OPTIONS

A better WAY TO BUILD

A simplified process leads to practical and beautiful business spaces.

Built in half the time of conventional on-site project, our premium factory-built units are better constructed, healthier to work in and easier to maintain. During the building process you won't have to disturb the day to day running of your business with an on-site construction project, or take away time from your work trying to manage one.

A better CLIENT EXPERIENCE

Our end-to-end approach to design and construction is carried out interactively, we work with you to realise the units your business needs.

We're committed to reducing stress and risk by streamlining the building process, always being transparent about pricing, timing and providing a quality team who are here for you every step of the way.

HAIR AND BEAUTY PARLOR

RELAX - IT'S *like* CEDAR CLADDING

Our WPC (wood plastic composite) cedar effect external cladding isn't just beautiful, but a 100% and maintenance free.

RELOCATE?

All our units come on a solid steel chassis, and are delivered fully finished. If you ever wish to relocate your business you can take your premises with you!

Floor plans and sizes are bespoke. Extensions to existing premises are also available.

OUR FRIENDS

We work with a number of kitchen and bathroom companies, tile and flooring manufacturers, interior designers, beauty industry and office furniture suppliers to be able to provide you with a wide selection of interiors. Whatever your style...

ANY SIZE, ANY LAYOUT!

Since all our units are unique and custom made you won't have to make your work life fit round your premises, it will be the other way round. Tell us what size and layout is required, pick your inside and outside finishes and together we can design your new hq based on your ideas! Customise, don't compromise!

versatile BUSINESS SPACES
